Peace & Love

✧ From our House to Yours ✧

We had a good year this year. It started out kinda of quiet with Keith looking for work and we had to have our hardwood floors re-done in January. We celebrated our 10th Wedding Anniversary in February at Buca on the Plaza. Buca was the location of our wedding reception in Minneapolis, so that was nice. We also put out a 10th Anniversary geocache in commemoration. Keith started his new job with UBC in March - no longer working from home, so that was a real change battling traffic every day. We had Great Plains Super Launch in Pella, Iowa in June and had a great time. July was really busy! Keith went off to Scout Camp for 10 days and I went off to Dublin on a business trip. This was the longest we had been apart since we were married. It was fun because I had a chance to talk to him via satellite and ham radio using an iPhone app while we were thousands of miles apart. Summer buzzed by fast and then it was Fall, Matt's 2nd Birthday and Patrick was born, We took a trip to Sacramento in November just to get away for a few days, and now it is December. Whew!
